

STEPHANY'S

The All Natural Choice.

Company Fact Sheet

Stephany's has been hand-crafting delectable, all-natural chocolate delicacies in Colorado since 1963. The company, which started as a side business for Colorado pharmacist and drugstore owner John Poulis, sells its chocolate creations to consumers via select retail locations and other wholesale customers.

All Stephany's confections begin with traditional, French-recipe milk chocolate and bold dark chocolate from beans selected from around the globe by the world-renowned Guittard Chocolate Company. Family owned for 140 years, Guittard today uses the same unique roasting, grinding and conching formulas Etienne Guittard introduced from France in the 1850s.

Today, Stephany's is a leading manufacturer of an all-natural line of premium chocolates that are prepared from scratch using proprietary recipes and only the finest natural ingredients. Among its diverse collection of natural ingredients, Stephany's uses only meticulously selected natural flavors: rich Madagascar vanilla, cane sugar, sea salt, sun-drenched California almonds, Ceylon cinnamon, to name a few.

It is equally important to note what is not in Stephany's chocolate products. Stephany's products contain no preservatives, artificial flavors, artificial colors, trans fats or GMOs.

In 2006, Stephany's was purchased by Colorado-based Enstrom Candies Inc., which also has an impeccable reputation as a world-renowned candy maker. As part of the Enstrom Candies family, Stephany's is poised for strong national growth with its well-known and well-loved collection of products. Stephany's has received numerous awards and acclaim over 40 years.
